Subject: Subpart ZZZZ Engine Testing - Diesel Engine 2B

Hi Heather,

As discussed in our telephone conversation, Sunoco Partners Marketing & Terminals L.P. will be testing Diesel Engine 2B on Monday October 25, 2021. Diesel Engines 4A, 4B, 6A, and 6B were previously tested on August 18th and 19th and Diesel Engine 2A is currently out-of-service. Since this engine is located on a process water sump verses a storm water only sump, we will be holding process water throughout the weekend in order to have sufficient water to conduct testing on one engine with the shortened test runs.

If you have any questions, comments, or concerns, please do not hesitate to contact me.

Thanks,
Kevin
